

Student Research Awards (GRA) Account Flow Chart

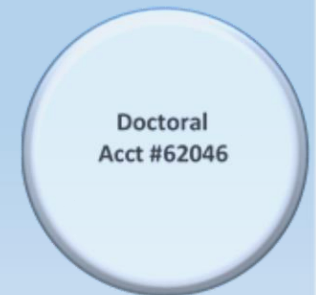

Proper coding of “payroll” (i.e., using the right account(s)) is critical for effective financial reporting. Historically we have a high rate of miscoding of accounts, resulting in significant effort regarding review and adjustment.

The following flowcharts will assist researchers and administrators in selecting the proper accounts when completing the GRA form or EPAF. Please contact research accounting with any questions regarding this issue. Research analysts by faculty can be found here.
