Investigating and Partnering Around the Ethical Applications of Technology

- Ontario Tech's Frazer Faculty of Education proudly supported the first Canadian high school team to become finalists in the prestigious [NASA HUNCH program](#), a project-based educational initiative held at the renowned NASA Johnson Space Center in Houston, Texas. The team from Victoria Park Collegiate Institute (VPCI), within the Toronto District School Board, presented its Lunar Ejecting Robot Prototype to astronauts and NASA staff.
- The Ontario Tech University's [Brilliant Energy Institute](#) and Office of the Vice-President Research and Innovation has partnered with George Brown College's Brookfield Sustainability Institute (BSI) to explore the potential of nano reactors: small, portable, semi-permanent nuclear reactors than can be used in small communities or for industries such as remote mining, telecommunications, and off-grid data centres
- [Dr. JoAnne Arcand](#), Associate Professor, Faculty of Health Sciences, and a team of dietitians and graduate students designed and launched the Sodium 101 web application. The app seeks to raise awareness about the long-term risks of excessive sodium consumption, and to provide users with an engaging learning experience, empowering Canadians to take control of their sodium intake and make healthier dietary choices
- To explore the applications of AI in health care, Ontario Tech University and Lakeridge Health recently formed the [Partnership for Advanced Technology in Health Care \(PATH\)](#). The strategic alliance intends to improve patient outcomes, enhance access and satisfaction, and ensure the long-term sustainability of health-care services.

Student Success and initiative

- Ontario Tech University doctoral student [Aneta Stolba](#) recognized for helping advance key research on autism in Canada. Stolba's research centres on identifying themes, perspectives and support mechanisms related to the portrayal of autism on Canadian organizational websites, to create a more nurturing environment for individuals with autism and their support systems.
- [Salma Bafagih](#), a Master of Health Sciences in Community, Public, and Population Health degree candidate in the Faculty of Health Sciences clinched the top spot at Ontario Tech's annual Three Minute Thesis competition with her research presentation titled "What's on your plate? Examining predictors of food literacy among Canadian adults".
- At [87 years old](#), Patricia Bayley has enrolled in the Frazer Faculty of Education's Doctor of Education program at Ontario Tech in the Doctor of Education program to pursue studies around poetry and the impact it has on older adults. Students

All data summarizes official student enrolment as reported by Ontario Tech University to the Ontario Ministry of Colleges and Universities, which has a count date of November 1 each academic year. Students pursuing more than one degree are counted within their major field of study. The methodology used in calculating all counts is considered true as of the date of publication. During 2022-2023, in order to better align disciplines and combine expertise, the Faculty of Energy Systems and Nuclear Science was integrated into the Faculty of Engineering and Applied Science as a department. Faculty-level data provided from 2023-2024 and beyond reflects this change.

Fact Book Glossary

Assistant Professor – A professional rank where a faculty member has completed the doctoral degree and can demonstrate experience or strong potential in the facilitation of learning, scholarly research and/or creative professional practice.

Associate Professor – A professional rank where a faculty member has demonstrated a record as a good and technologically innovative teacher committed to academic excellence and high-quality peer-assessed scholarship and/or creative professional practice.

BIU – Basic Income Unit. BIU = Full-time Equivalent (FTE) multiplied by weighting factor, depending on program of registration and the level of study. This measure of enrolment is used in government funding calculations.

CFI – Canada Foundation for Innovation

CIHR – Canadian Institutes of Health Research

Tenure/Tenure-track Faculty – Any person employed by the university with responsibility for a full range of academic duties (teaching, research and service), who is eligible for tenure or is tenured.

COU – Council of Ontario Universities

CRC – Canada Research Chair

Eligible/ineligible students –Refers to the eligibility of a student for operating grants from the provincial government. A student is considered eligible if he or she is either a Canadian citizen, a permanent resident, an eligible international student or a protected person; and is enrolled at an eligible institution, in a publicly-supported program approved after meeting the specific eligibility criteria set by the Ministry of Training Colleges and Universities.

FTE/FFTE – Full-time Equivalent/Fiscal Full-time Equivalent. Undergraduate and graduate FTEs are counted differently. Undergraduate FTEs are counted as a proportion of a normal full-time load for a particular program and level of registration over an academic year (all terms), or FFTE. Full-time undergraduates normally register for two terms per academic year, and those taking a full course load generate 0.5 FTE each term or 1.0 FFTE in total. Undergraduate students taking fewer courses than a full course load will generate proportionately fewer FTEs, and those taking more than a full course load or earning credits in a third term generate more FTEs. Graduate students are counted per term. By convention, graduate FTEs are approximated by summing FTEs in fall and summer terms. Graduates normally register for three terms. Full-time graduate students generate 1.0 FTE and part-time graduate students 0.3 FTE.

Full-time and part-time status – Students are considered full-time when they take 60 per cent or more of a full course load. Part-time status is designated for students taking less than 60 per cent of a full course load.

Headcount – Every student enrolled is counted as one headcount, regardless of registration status or course load or level of study. Fall term full-time headcounts (counted on November 1) are a commonly used measure for enrolments.
