

**Major Program Modification  
Addition of Simple Pathway**

Faculty: Faculty of Business and IT	Date: Sept. 10, 2015
Program: Pathways Program: ACTU to include Fleming	

*This form should be used in cases where a new pathway (e.g. Bridge, Direct Entry, 2+2) has been created for an existing undergraduate program. This new pathway must not include new courses or significant changes to the original program learning outcomes. Multiple pathways into the same UOIT program may be included on this form (e.g. 3- and 5- course Bridge, equivalent pathway from multiple sending institutions).*

**Proposal Brief**

**Summary of the proposed change**

No changes. We are simply adding Fleming as a partner institution.

**Description of the ways in which the proposed change will enhance the academic opportunities**

Students from Fleming will be able to participate in the embedded bridge Accounting Diploma program (ACTU).

**Process of consultation with other institutions and internal units if the change(s) involve students, staff and faculty from other programs or courses**

We have worked with Fleming College to ensure the embedded courses fit in the current semester offerings.

**Admission Requirements**

Same as the existing ACTU program. There are no changes.

**Brief analysis of any financial, resource, and/or enrolment implications**

Same as the existing ACTU program. The students will be in the same online courses as the Loyalist students. This should help to improve the class sizes in these sections.

**Proposed Implementation Date (when will students first be admitted)**

First Embedded course would be **January 2016** and it is already scheduled for existing program students. The students would join UOIT in Fall 2017.

**Calendar Copy and Program Maps (highlight revisions to existing curriculum; please include the Schedules of the Articulation Agreement(s), if applicable)**

*Attachments – See Attached.*

**APPROVAL DATES**

Date of submission	September 15, 2015
Faculty Council approval	October 1, 2015
CPRC approval	October 28, 2015
Academic Council approval
