Minor Program Adjustment

Faculty: Health Sciences	Date: November 2016
Program: Bachelor of Science in Nursing	
Undergraduate:	Graduate:

Minor Program Adjustments include: New required courses, Deletion of required courses, Other changes to degree requirements or program learning outcomes, New academic requirements or changes to existing requirements.

Motion to CPRC or GSC: That CPRC approve the addition of the new course, HLSC 3712U, to the list of required courses in the program.

Proposal Brief

Summary of the proposed change

We are proposing a new course for the BScN Program, HLSC 3712U Professional Ethics in Nursing to replace HLSC 3710U Ethics. Currently, HLSC 3710U is a required course in the Collaborative BScN and RPN-BScN Bridging program requirements.

Rationale: When HLSC 3710U Ethics is offered in the Fall term, nursing students take it; it is designed with their needs in mind. For example, seminar sessions are led by nursing faculty and modules particular to nursing are integrated. However, when it is offered in the summer, these pieces are not integrated, there are no seminars and it is open to anyone. This means that nursing students who might sign into this course do not get the addition of the content important to nursing and the ability of students to achieve the ethics entry to practice competencies set down by the College of Nurses of Ontario (the regulatory body).

Please note that this is in line with the recent creation of HLSC 3711U Professional Ethics and Communication in Kinesiology for the Kin programs.

Description of the ways in which the proposed change will enhance the program and/or opportunities for students

This change does not change content in the course. It simply clarifies that this is the ethics course for students in the nursing program. HLSC 3710U Ethics will continue to be offered to the BAHSc & BHSc students. HLSC 3712U Professional Ethics for Nursing will be offered to all BScN students (fall).

Process of consultation with other units if the change(s) involves students, staff, and/or faculty from other programs or courses

None required.

Analysis of financial and enrolment implications

None.

Proposed Implementation Date

2017/2018 academic calendar

Transition Plan

The program maps will need to reflect this course number and name change as noted below.

Calendar Copy and/or Program Maps (highlight revisions to existing curriculum)

Faculty: Faculty of Health Sciences				
Course title: Professional Ethics in Nursing				
Course number: HLSC 3712U	Cross-listings: n/a	_x	Core	Elective
Credit weight: 3 Contact hours: 1.5 Lecture, 1.5 Lab bi-weekly, 1.5 Tutorial Other		5 Tutorial		

CALENDAR DESCRIPTION

In this course, students will explore the history of ethics with particular emphasis on the theories that apply to ethics in health care. Ethical decision-making will be discussed, and students will gain practical knowledge in the application of ethics to health care by examining special topics in biomedical ethics.

Prerequisites	24 credit hours
Co-requisites	
Credit restrictions	HLSC 3711U and HLSC 3710U
Credit exemptions	

LEARNING OUTCOMES

On the successful completion of the course, students will be able to:

- Describe and create content about the key philosophers who contributed to ethics.
- Illustrate ways in which religion, politics/policy, culture, science/technology, and economics influences ethical decisions.
- Describe the development of ethical theories.
- Explain the roles of health care professionals in ethical decisions affecting individuals, families, communities.
- Discuss the importance of narrative ethics in health care.
- Apply the principles of ethical decision-making to case studies
- Appraise professional codes of ethics regarding their practical implications and applications.
- Compare ways of including the principles of self-determination, well-being, and equity into shared decision-making about health care delivery.
- Critically examine the ethical issues which arise in human research, health promotion, disease prevention, and biomedical advancements.
