

CURRICULUM AND PROGRAM REVIEW COMMITTEE

Report to Academic Council

at its meeting of September 25th, 2018

FOR ACTION

1. Centre for Institutional Quality Enhancement

a. Cyclical Program Review Final Assessment Summary Reports

The Curriculum and Program Review Committee recommends:

That Academic Council approve the summary reports of the undergraduate program reviews outlined below.

Rationale

In accordance with UOIT's Quality Assurance Framework, the Committee reviewed the reports and recommendations for the following two programs that underwent a cyclical review to ensure that they meet provincial quality assurance requirements and support their ongoing rigour and coherence:

- Bachelor of Engineering in Manufacturing Engineering
- Bachelor of Engineering in Mechanical Engineering

Each review involves an examination, by both program faculty and staff and external reviewers, of the program's goals and requirements, its curriculum content, structure, modes of delivery, and assessment of student learning, and its use of available resources to support the program. Their work has generated a valuable set of documents that reflect a great deal of care and attention to the ongoing development and refinement of programs that best meet the needs of students and best represents the current state of each particular field of study. The Committee commends all Faculty and staff who contributed to these program reviews for their important input into the process.

The attached executive summaries provide an overview of the outcomes of the recommendations resulting from the program reviews, identifies particular strengths of the programs as well as opportunities for improvement and enhancements, and outlines the agreed-upon implementation plan.
