

Subject: Enrolment Update**For Information:**

Below is the preliminary fall enrolment headcount broken down by new and continuing students. These numbers represent the count as of September 17, 2020.

Normally we freeze at Day 10 (i.e., September 22), the last day to add and drop courses without penalty and provide a few days to verify the registration data. This would provide a more accurate year over year comparison. However, this year the university offered an Experience Guarantee – as follows - **if a student is not satisfied they can withdraw by October 9, 2020 and receive a full refund.** This allows students to be confident enrolling in the fall, knowing that we are as committed to their experience, and if they are not satisfied they may withdraw on a date much later than in prior years.

There are 10,832 students enrolled in Fall 2020, versus 10,461 in Fall 2019 (Day 10). This currently represents a 3.5% increase in enrolment by headcount from last year.
