

**Subject:** November 2020 Enrolment Update**For Information:**

Based on the November 1, 2020 headcount data there are 10,674 students enrolled in Fall 2020 versus 10,390 in Fall 2019 (2.7% increase). Undergraduate students are taking slightly less of a regular course load this fall (83% in 2019 vs 81% in 2020). Caution remains as we wait to see what impact reduced levels of student success, potential drops in course registrations per student, or increased level of illness may have on course registrations and overall student enrolment levels.
