Information

TO: Academic Council

DATE: January 26, 2021

PRESENTED BY: Brad Maclsaac, VP Administration

SUBJECT: 2021-22 Tuition Fees

BACKGROUND/CONTEXT & RATIONALE:

The tuition fee framework, released by the provincial government in December 2018, regulates all publically funded programs and allows for domestic tuition fee differentiation based on program and program year. The 2018 framework outlined a 10% decrease in 2019-20 domestic tuition rates and a freeze for 2020-21.

A revised framework has not been released. This document assumes that rates will remain frozen. International and cost recovery programs are not included in the limits imposed by the provincial framework. The university guiding principle has been to be close to the Ontario System mean for our rates. This document proposes increases that will keep the university below the 2020-21 rates. After careful consideration, the decision has been made not to adjust international research based graduate tuition fees for next year.

Should a revision be required due to a change in government framework we will report back to Academic Council.
