

CURRICULUM AND PROGRAM REVIEW COMMITTEE

Report to Academic Council
at its meeting of April 17, 2012

FOR INFORMATION

1. Changes to courses and program requirements

The Committee notes for information the following changes to courses and program requirements:

- a) Bachelor of Arts in Forensic Psychology – Addition of required Biological Science course BIOL 1841
- b) Bachelor of Science in Health Physics and Radiation Science – Removal of BIOL 2840, RAD1 2110 and SSCI 1210, and substitution of BIOL 1840 for BIOL 1010, and RAD1 2100 for ENGR 2950, and a consequent reduction in the total credit hours from 132 to 123
- c) Bachelor of Science in Nuclear Engineering – Removal of BIOL 1840 as an alternative to ENVS 1000
- d) Bachelor of Information Technology – Updates to course maps in the bridging and pathways options
- e) Bachelor of Health Science, Specialization in Kinesiology - Removal of required course HLSC 3711 and replace with HLSC 3710
