

## **CURRICULUM AND PROGRAM REVIEW COMMITTEE**

Report to Academic Council  
at its meeting of May 20, 2014

### **FOR ACTION**

#### **1. Bachelor of Engineering in Energy Systems Engineering and Management—Major Program Modification**

The Curriculum and Program Review Committee recommends:

*That Academic Council approve the “and Management” option for the Bachelor of Engineering in Energy Systems Engineering program.*

The Faculty of Energy Systems and Nuclear Science has put forward a proposal to formally approve the ‘and Management’ option in the Bachelor of Engineering in Energy Systems Engineering program. This proposal is to correct an oversight that this option was not formally approved for students in this program. The structure will be the same as that of the ‘and Management’ option offered in the other engineering programs. The detailed proposal is attached as Appendix A
