

Student Accessibility Services Partnership Agreement

Accommodating students with disabilities at Ontario Tech University requires a partnership with the student seeking services and the SAS specialist. SAS specialists will work collaboratively with students to ensure they have equitable access to their education. As such, SAS staff will rely on your initiative to ensure that the needs you identify are met in a reasonable, appropriate and individualized manner.

Student Responsibilities

I understand that accommodation is a collaborative process and that I am required to play an active role in developing and maintaining my accommodation plan.

I understand that:

- I will renew my accommodations at the beginning of each semester, if accommodations are required.
- I will contact my SAS specialist if I am not receiving my accommodations.
- I will contact my SAS specialist if I am struggling, feeling overwhelmed, and/or if I require changes to my accommodations.
- **I need to check my ontariotechu.net email account on a regular basis.**
- I need to inform SAS of any changes required related to my disability, my courses, or my test or exam schedule.
- I will cancel my appointment if I am unable to attend.
