

Grade Upload Process – MyCampus

This document outlines the steps for uploading final course grades to MyCampus using a spreadsheet. Steps for exporting the grade spreadsheet from Canvas to Excel, an optional process, are also included. Instructors are advised to verify that all grades are correct before uploading grades to MyCampus.

Downloading Grades from CANVAS

If you do not plan to download final grades from Canvas first then skip to **Preparing a Spreadsheet for the Grade Upload Process** below.

1. Select your Course from the Canvas Dashboard.
 1. Select **Grades**.

Important: Do not modify the grading scheme in your course. The Ontario Tech grading scheme for your course has been applied automatically through the system.

2. Select **Actions > Export**.

Student Name	Sync grades to SIS	Week 8 Knowledge Out of 10	Week 8 What Did you... Out of 10	TP Test Out of 10	In class test	Assignments	Total
Michael Guy	Import	8	5	8	62.75%	-	62.75% C
Test Student	Export	4	4	6	41.86%	-	41.86% F

3. Once you have downloaded the excel spreadsheet, follow the steps in the next section to include all the required fields. You will need to add new columns for CRN and term code.

Note: It is important to be aware of the specific grade calculation column used in the downloaded spreadsheet from Canvas when verifying final grade calculations. Please note how unsubmitted assignments (i.e. blank grade cells), and hidden assessments are managed in each of the following columns.

Current Grade – Refers to graded, posted assessment only. Hidden assessments and blank grade cells are not captured.

Unposted Current Grade – Reflects marks for graded assessments only and includes hidden assessments. Unsubmitted assessments are excluded.

Final Grade – Refers to overall course grade including unsubmitted assessments which are calculated as a zero. Hidden assessments are excluded. **Note:** The grade column for your final exam or terminal piece of coursework must be hidden/unposted (see [Examination and Grading Policy](#)).

Unposted Final Grade – Refers to overall course grade, including unsubmitted assessments as zero, as well as hidden assessments.

Please read the ‘**View Read-Only Columns**’ section in the following [Canvas guide](#) for further details.

Preparing a Spreadsheet for the Grade Upload Process

The following are required in order to successfully upload final grades to MyCampus:

- There must be a column with the students’ student (Banner) IDs,

- There must be a column containing the term code, and
- The file must be saved as a .xlsx or .xls file.
