

Dr. Brad Easton

### Candidate Statement

I joined Ontario Tech in 2006 and have been involved in many aspects of university governance, including 2 terms on Academic Council. I have always been focused on ensuring our university is committed to excellence in research, teaching, and graduate studies. If elected, I will bring to the Board an informed perspective of someone entrenched in the daily dynamics of classroom teaching, university research, and graduate student supervision. My goal is to aid the Board in making knowledgeable choices that ensures our university will thrive. I look forward to the opportunity to be your voice on the Board of Governors.
