

## Mehdi Hossein Nejad Candidate statement

I am hoping to receive your support to serve as the faculty representative on the Board of Governors. My educational background is in strategic management and I currently teach the topic at Ontario Tech. I hope to contribute to decisions regarding the overall direction of the university, its budgeting priorities, and our institution's approach to research and student experience. I am excited to add our voice to these critical decisions as Ontario Tech navigates the opportunities and challenges of the sector and considers various growth paths. Thank you.
