

Peter Marchut – Candidate Statement

With a decade of business, management, and technical experience, I am a third-year Mechatronics Engineering student, deeply rooted in the Ontario Tech campus and greater Oshawa community. My dedication to serving the community is demonstrated through my involvement as a volunteer youth baseball coach and my previous role on the Technology Advisory Board at Kids Help Phone. I aim to leverage my experience to drive positive change and advocate for an inclusive, supportive academic environment that nurtures future leaders. Together, we can foster a culture of innovation at Ontario Tech. Let's shape a brighter future for our university.
