| <p>Notes and conditions for approval:</p> <ol style="list-style-type: none"> To foster academic success, the Faculty strongly advises students not to seek permission to waive course prerequisites, and only permits waiving of prerequisites where (a) strong justification for the request is presented, (b) a student has performed sufficiently well academically to merit the waiver. Prerequisite waivers are normally allowed only in situations where the student has sufficient knowledge of the material in the prerequisite course(s) to allow the student to participate in the course for which the prerequisite waiver is sought. Approval of a prerequisite does not imply the student has mastered all the prerequisite material. Gaps in the student's knowledge in the prerequisite material may be present, and it is the student's responsibility to make up any deficiencies. The student acknowledges that (a) waiving prerequisites is not recommended, (b) it is his/her responsibility to rectify any deficiencies in his/her knowledge of prerequisite material, and (c) poor performance due to approval of prerequisite waivers cannot be used as grounds for a course appeal. The completed form must be returned to the Faculty of Energy Systems and Nuclear Science. |
