\*Open Elective: Can be any year level, in any Faculty. For students interested in biophysical aspects of Kinesiology, we recommend taking a Biology or Chemistry course. For students interested in psychosocial aspects of Kinesiology, we recommend taking a course from the Faculty of Social Science and Humanities.

\*\*Kinesiology elective courses should be chosen based on recommended clusters in the Kinesiology handbook to ensure students are best prepared for the field of interest upon graduation. If interested in being eligible to apply for AT internship for final year, students must take KINE 3476 (Advanced Sport Injury Management) for one of their Kinesiology electives.
