

2020 – 2021 – Bachelor of Science in Psychology

Year 1	BIOL 1010U – Biology I: Molecular and Cellular Systems	CHEM 1010U – Chemistry I	PHY 1030U – Introductory Physics	MATH 1015U – Mathematics for Bioscience	SOCI 1000U – Introductory Sociology
	BIOL 1020U – Biology II: Diversity of Life and Principles of Ecology	CHEM 1020U – Chemistry II	PHY 1040U – Physics for Biosciences	PSYC 1000U – Introductory Psychology	General Elective
Year 2	PSYC 2010U – Developmental Psychology	PSYC 2030U – Abnormal Psychology	PSYC 2050U – Brain and Behaviour	SSCI 2900U – Research Methods	General Elective
	PSYC 2020U – Social Psychology	PSYC 2060U – Cognitive Psychology	PSYC 3060U – Personality Psychology	SSCI 2910U – Data Analysis	General Elective
Year 3	SSCI 3910U – Advanced Data Analysis	Psychology Elective*	Psychology Elective*	Science Elective	General Elective
	Psychology Elective*	Psychology Elective*	Science Elective	General Elective (2000U level or higher)	General Elective
Year 4	One of: Psychology Elective or PSYC 4101U – Honours Thesis I	One of: SSCI 4098U – Practicum or SSCI 4103U – Internship or Psychology Elective	Psychology Elective*	General Elective (2000U level or higher)	General Elective (2000U level or higher)
	One of: Psychology Elective or PSYC 4102U – Honours Thesis II	Psychology Elective*	Psychology Elective*	General Elective (2000U level or higher)	General Elective (2000U level or higher)

Psychology Electives: Any non-required course with a PSYC 3XXX or 4XXX designation can count towards students' necessary Psychology electives.

Science Electives: Any non-required course run within the Faculty of Science that does not have a PSYC designation can count towards students' necessary Science electives.

Specializations available in:

1. Developmental Psychological Science, and
2. Affective Science and Mental Health

2020 – 2021 – Bachelor of Science in Psychology

Specialization in Developmental Psychological Science

The specialization in Developmental Psychological Science requires that students complete the following three Developmental Psychology courses:

- PSYC 3035U – Adolescence
- PSYC 3045U – Child Maltreatment
- PSYC 3075U – Biopsychology of Sex

and at least two additional courses from the following list:

- HLSC 2810U – Child and Adolescent Health
- HLSC 4807U – Perspectives in Aging
- HLSC 4808U – Exploring Mental Health and Developmental Disabilities
- PSYC 3039U – Children, Psychology and the Law
- AEDT 1110U – Foundations of Adult Learning
- AEDT 1120U – Foundations of Digital Teaching and Learning Technologies
- AEDT 1170U – Psychological Foundations and Digital Technologies
- AEDT 3160U – Developing Literacy
- AEDT 4150U – Holistic Learning in Early Childhood

Specialization in Affective Science and Mental Health

The specialization in Affective Science and Mental Health requires that students complete the following three Clinical/Affective Psychology courses:

- PSYC 3065U – Emotion
- PSYC 3050U – Social Affective Neuroscience
- PSYC 3085U – Drugs and Behaviour

and at least two additional courses from the following list:

- PSYC 3055U – Treatment in Forensic Settings
- PSYC 4820U – Selected Topics in Antisociality
- HLSC 1811U – Social Determinants of Health
- HLSC 3463U – Human Genetics in Society
- HLSC 4821U – Exploring the Mind Body Connection: Wellness Promotion Strategies for Life
- BIOL 3060U – Fundamentals of Neuroscience
- BIOL 4820U – Neuropharmacology
